

FACT SHEET

Bell 206

The Bell 206 Jet Ranger is a light single-engine turbine helicopter, designed by Bell Flight in the US. The military versions of the Bell 206 were successfully operated as surveillance helicopters for many years in the US Army. Our HB-XXO is mainly used for Tour-, Taxi-, and VIP flights and convinces with a very neat interior.

We would be happy to advise you personally and organize everything for your trip including ground transportation from and to the helicopter.

The Bell 206 is the most successful commercial helicopter with over 6'300 units sold worldwide.

Our HB-XXO at a glance:

- Year of manufacture YOM: 1982
- Last refurbishment: 2021
- Variant: Jet Ranger III
- Turbine (Allison C20), delivering 420 hps
- Scope of Operation: Taxi-, VIP and Tour flights
- Max. Passenger capacity: 4
- Max. Range: 500 km
